

RISK WARNING

High Risk Investment

Trading Forex on margin carries a high level of risk, and may not be satisfactory for all investors. The high degree of leverage can work contrary you and also for you. Before picking to trade foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. The opportunity exists that you could sustain a loss of a couple of or all of your initial investment and therefore you shouldn't invest cash that you can't afford to lose. You have to be aware of all the risks consorted with Forex trading, and seek advice from an autonomous financial advisor if you have any doubts.

Market Risks and Online Trading

The trading system provides complicated order entry and tracking of orders. UMOfx will make absolute efforts to fill your trade at the price asked. Trading on-line, in spite of how convenient or efficient doesn't necessarily lower risks consorted with currency trading. All quotes and trades are subject to the terms and conditions of the Client arrangement accessible by ways of this website.

Economic News Disclaimer

As with all drastic economic releases there can be significant price volatility with this announcement. Currency spreads may frequently widen just before the release and will prevail wide for a couple of minutes after even though UMOfx still maintain it's fixed spreads policy for the moment. If there were any shocking announcement, it may cause the price of the currency pair to form a significant price gap. Any pending order that placed within the gap would turn into a Market Order and would be filled at the absolute price quote once the price spike is through.
